Print it out, fill in the gaps and send it back to us as a scan or a photo.

PHOTO

- A portrait picture
- Two full body pictures with tight clothes; one frontal shot and one from the side

VIDEO

- A video that shows us exercises in the style in which you are trained

Ideally your video includes:

- Ballet exercises at the barre and in the center
- Modern or Contemporary combination in the center
- Short improvisation or self-choreographed solo
(This should show us your strength as well as who you are as an artist and what you like. You are free to design it as you like it)

If you have no experience in ballet or modern dance, you don't have to film these parts.

If you want to present another dance style you can include it but note that we select our students mainly because of their qualification in Ballet or Contemporary.

Your video should not be longer than 30 minutes.

Please send us the application form and the photos via e-mail to: mindanddance@gmail.com
For the video you can choose WeTransfer or upload it to an online video platform like YouTube, Vimeo, ...

We are looking forward to seeing you dance!
